

# ANGLING CHECKLIST

Always wear a personal flotation device (lifejacket or buoyancy aid) when fishing.

Practice CPR - catch, photo, release as you fish.

Tread carefully. Avoid damaging sensitive habitats getting to your location.

Be aware of changing tides or water levels.

Prevent spread of invasive species - check and remove any debris or plants and leave behind.

Always tell someone when you expect to be home.

Let any wildlife encounter be on their terms. Keep your movements slow and steady.

Take your waste home with you and dispose of it properly.

Only light fires when and where they are permitted.

After use... check, clean and dry your equipment and clothing. Help stop the spread of invasive species.
